

Join B2E CoLAB – Innovation Manager Position (CC2 - 2025)

Are you passionate about driving innovation in the Blue Bioeconomy? Do you have a strong track record in securing project funding and navigating the complexities of multi-stakeholder collaborations? Do you feel comfortable in navigating across market studies (consumer, competition, etc) and regulatory frameworks?

B2E CoLAB is looking for an experienced professional to join our team as an Innovation Manager – your availability to start must be immediate and the position is to be held until 31st December 2025. The salary will go up to gross 2.041,84€, according to experience.

Who We Are

B2E CoLAB is at the forefront of advancing the Blue Bioeconomy, fostering research, innovation, and market-driven solutions. We work on cutting-edge projects that bridge sustainability, technological development, and economic growth.

Your Role

As an **Innovation Manager**, you will secure funding, manage R&D projects, and drive strategic initiatives in the Blue Bioeconomy. Your role also includes strong analytical, communication, and stakeholder engagement skills.

Key Responsibilities

- Writing and securing funding for national and EU projects (e.g., Horizon Europe, national grants).
- Managing innovative projects and multi-stakeholder consortia.
- Analyzing consumer trends, market developments, and competitor activities.

- Identifying regulatory barriers, proposing solutions, and engaging key stakeholders.
- Fluency in English and Portuguese is required.

 To apply, send your CV and academic certificates to b2e@b2e.pt by 28th march.
